

Video Transceiver

HTA-TTP111V3J45

Passive Video Transceiver BNC Male to RJ-45 terminal adapter. Video transceivers provide a highly balanced mode of video transmission, which is immune to interference from these and other sources of noise. Cable requirement: UTP wire

Features:

- BNC male to RJ-45 Terminal block.
- HTA-TTP111V3J45 Video Transceiver BNC Male to RJ-45 terminal adapter
- Transmit a full motion color or monochrome video signal up to 600 meters.
- Passive, no power required.
- Built in impedance couple device and noise filter for exceptional interference immunity.
- Up to 16 pieces HTA-TTP111V3J45 can work with 16 port Transmission Panel HTA-TPP016-RJ45
